

DIY Home Workshop Kit Prices

We have designed our range of superior build workshops to offer homeowners a choice of strong and secure workshops that are fit for purpose and suitable for a variety of locations.

Our workshops are unlike other workshops; these are not large sheds, but are robust, quality workshops that are built to last, with strength and durability built into the walls, floor and roof. All of our prefab workshops are available as insulated and non-insulated rooms.

Ideal for a range of creative and practical work uses and hobbies, such as making furniture and pottery, machining and equipment storage, our prefabricated garden workshops are designed to be installed on concrete or strong paved areas and can safely accommodate ride-on lawn mowers, motorbikes, fixed machinery and workbenches.

Our workshop kits are built using the SIPs system that we manufacture at our purpose-built facility using the highest quality materials. This cost-effective, sustainable method of construction delivers strength, versatility and longevity.

DIY Glevum Home Workshop Kit from £15,099.60 (inc. VAT)

The Glevum Workshop features an apex roof with an interior height of 3 metres. This spacious workshop is available as an insulated or non-insulated room and can be clad in your choice of redwood, thermowood or larch, for a workroom that's fit for purpose on the inside and eye-catching on the outside.

This striking home workshop is built to last, with durability and strength built into the walls, floor and roof.

The Glevum Workshop Kit has been designed to be installed on concrete or strong paved areas in a variety of locations and can safely store fixed machinery, workbenches, ride-on lawn mowers, motorbikes and leisure equipment.

It is available in a range of sizes and a choice of three different claddings, so that you can choose a workshop to suit the style and size of your home, as well as your need.

The workshop kit is delivered to your home in a kit for installation by a competent DIY'er or local tradesperson and a full set of installation drawings is supplied.
