

Become a Garden Room Superstore Trade Partner

Grow your home improvement offering through
our **Authorised Installer Programme**

Why partner with us?

- ✓ Instant Expansion - Access our ready-made premium garden room range
- ✓ Your own weblink to share our range of garden rooms with your customers
- ✓ We take care of all designs, drawings, procurement, manufacture and delivery
- ✓ Sales administration and quotation support all handled by us - less admin stress for you
- ✓ Training before the first installation and ongoing support
- ✓ No marketing outlay - generate local installation work and additional revenue
- ✓ Upsell opportunities for related services such as landscaping or base preparation

Customer incentive

Your customers receive

£1,000 OFF

the listed VAT-inclusive price on installed rooms purchased through your unique Trade Reference Number.

How the model works

- The customer buys the garden room from us
- We deduct the cost of the kit from the sale price of the garden room (prices as published on our website),
- We also deduct a 10% fee for our administration and design costs
- The balance goes to the Trade Authorised installer

No Hidden Fees

Create profitable and efficient installs

How the Partnership Benefits Your Business:

Instant Product Expansion: You can advertise our premium, structurally engineered garden room ranges directly on your website using our professional media assets and configurations.

We Eliminate Your Admin Stress: Future Rooms handles 100% of the design revisions, architectural CAD layouts, customer financing/paperwork, balance invoicing, manufacturing, procurement and delivery.

Guaranteed Local Revenue: Every single garden room lead that originates from your website or link is passed straight back to your crew. Your fee is the substantial balance remaining between our wholesale DIY kit cost and the final net room sale, minus a flat 10% admin fee.

An Uncapped Upsell Pipeline: You retain 100% of the revenue for any secondary landscaping work, site preparation, patios, or brickwork that the customer requests alongside the room build.

A Head-Start for Your Leads: To help you close inquiries easily, we provide your business with a unique Trade Code that gives your customers an instant **£1,000** discount off our retail rates.

Complete Technical Support

We don't just drop off components and leave you to figure it out.

We supply full technical instruction packs, and we will send a Future Rooms corporate build representative to support your crew on-site during your very first installation to ensure everything goes perfectly.

We set out clearly from the beginning expectations of site crews and clear guidance on how our quality garden rooms are installed to ensure customer satisfaction.
